

Woodline

Woodline

Dedichiamo questa collezione ai nostri figli, Woodline rappresenta la possibilità di utilizzare il delicato calore naturale del parquet in legno senza tagliare un solo albero.

Un materiale realizzato in porcellanato fine dalle forti caratteristiche tecniche per affrontare in totale sicurezza ambienti di alto traffico e zone umide. Tonalità cromatiche calde e luminose con un delicato stonaggio a imitazione delle più pregiate essenze lignee.

Formati e complementi per aiutare la personalizzazione di ogni ambiente.

Woodline di Vallelunga semplifica la posa delle doghe a opus incertum così come della spina di pesce; del parquet a cassettoni e dei rosoni intarsiati. Soluzioni per ogni stile: dal barocco al neoclassico, dal rustico al contemporaneo, tante proposte originali e versatili.

Мы посвящаем эту коллекцию нашим детям, «Woodline» представляет возможность использования мягкого естественного тепла деревянного паркета, не срубая при этом ни одного дерева.

Материал, полученный из эмалированной керамики с высокими техническими характеристиками может надежно укладываться в помещениях с высокой проходимостью и влажностью.

Хроматические горячие и светящиеся тональности с деликатным оттенком в имитации самой ценной деревянной эссенции. Размеры и дополнения для персонализации любой окружающей обстановки.

«Woodline» фирмы Vallelunga упрощает позу полос инцертум наподобие рыбной кости;

паркета и инкрустированных виньеток. Решения для каждого стиля: от барокко до

неоклассического, от рустика до современного, множество оригинальных и разносторонних предложений.
